Mall Store Changes

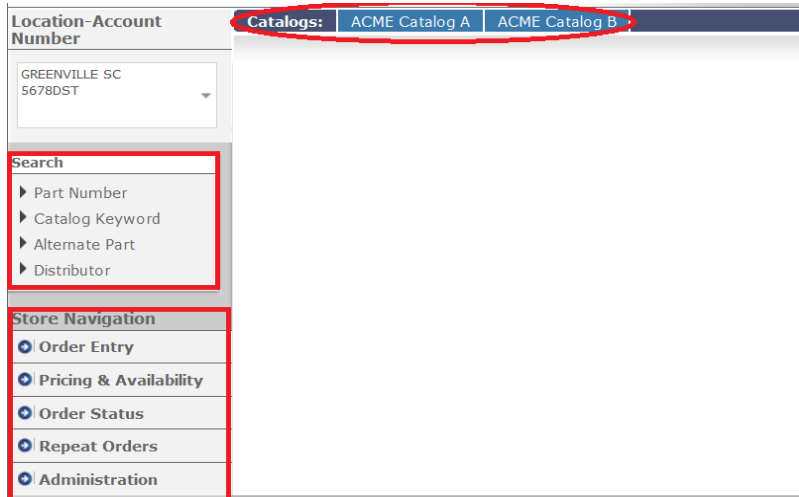

- Support and Profile & Defaults links can now be found at the top right hand side of the screen
- Support link has replaced the Help tab and contains FAQ's, Tutorials, Glossary and the Site Guide
- Administration tab can now be found on the left hand side of the screen
- The country selection is now located at the bottom of the screen in the "Change Country" link

The screenshot displays the PTPLACE.COM website interface. At the top right, the 'Support' and 'Profile & Defaults' links are highlighted with a red box. The main navigation bar features logos for Dodge Reliance, Gates, FAG, SKF MRC, and Timken. Below this, the 'Member Log In' section includes fields for Username, Password, and Manufacturer, along with a 'Remember My Username' checkbox and a link for forgotten credentials. The 'Administration' link in the left sidebar is circled in red. A central banner reads 'It is Almost Here - New & Improved PTplace!' and includes a call to action: 'Click here to see some of these exciting changes.' At the bottom, the 'Change Country' link is circled in red, with options for 'Canada', 'Mexico', and 'United States' listed below it.

Store Front Changes

- Catalogs can be found on the new Catalog bar at the top of the screen.
- Part number, catalog and distributor search are now located under the new Search header bar on the left hand side of the screen. Click on the arrow to expand the desired search tool.
- When typing in the Part Number Search, a results list of Part Numbers will appear that fit the selected criteria.
- Order Entry, Pricing and Availability, Order Status, Repeat Order and Administration tabs can now be found under the new Store Navigation header to the left of the screen.

- Location/account can now be changed by clicking on the Account Drop Down List in the upper left corner.

Part Number Search Results

- By hovering over anyone of the Part Numbers with the mouse pointer, a Product Detail layover will appear. The quantity can be entered here and will be added to the cart.

The screenshot shows a 'Part Number Search Results' window. At the top, there are tabs for 'ACME Catalog A' and 'ACME Catalog B'. Below the tabs is a table of search results. A 'Product Detail' pop-up window is open over the first row of the table. The pop-up shows the part number '123456BB', a description 'Ball Bearing', and a quantity input field with an 'Add To Order +' button. The main table has columns for 'Part Number', 'Description', 'Unit', 'Net Price', and 'Total Stock'. Each row in the table has a 'Check Pricing & Availability' button.

Part Number	Description	Unit	Net Price	Total Stock
1 123456BB	Ball Bearing	0.1 g	EUR 10,00	
2 123456TA	Tapered Assembly	0.1 g	EUR 4,00	
3 123456TB	Tapered Bearing	0.1 g	EUR 2,00	
4 123456TC	Tapered Cup	0.1 g	EUR 12,00	
5 123456TD	Tapered Cone	0.1 g	EUR 14,00

Line Item Resolution

- If there is an error when entering a quantity or part in a PA or PO, the respective field will be highlighted in yellow.

The screenshot shows an order entry interface. At the top, there is a sequence of four steps: 'Add Items To Order' (1), 'Review Order' (2), 'Shipping Options' (3), and 'Submit Order' (4). Below the steps is a 'Purchase Order Number*' field. Underneath is a section for 'Standard Entry' and 'Bulk Entry'. The 'Standard Entry' section contains a table with columns for 'Quantity' and 'Part Number'. The first row has a quantity of '1' highlighted in yellow and a part number of '123456BB'. The second row has empty fields. At the bottom of the table are 'Clear Items' and 'Add To Order +' buttons.

Quantity	Part Number
1	123456BB
2	

- Clicking on the field that has been highlighted will display a pop up message that will describe the error. For example, if a part needs to be ordered in a quantity of 10 and only 5 pieces have been entered, the message in the pop up window will say “The quantity was not updated because it must be a multiple of 10.”

The screenshot shows a web application interface for order entry. On the left, there is a sidebar with sections: 'Location-Account Number' (GREENVILLE SC ~ 1234DST), 'Search' (Part Number, Catalog Keyword, Alternate), and 'Store Navigation' (Order Entry, Pricing & Availability, Order Status, Repeat Orders). The main area has a 'Purchase Order Number*' field, an 'Add Items To Order' button (1), and a 'Review Order' button (2). Below these is a table with columns 'Quantity' and 'Part Number'. The first row shows a quantity of '1' (highlighted in red) and part number '123456BB'. A yellow callout box points to the quantity field with the text: "The quantity was not updated because it must be a multiple of 10." At the bottom, there are 'Clear Items' and 'Add To Order +' buttons.

- Another example of an error message would be that an invalid part is entered. The message in the pop up window will say “The part number cannot be recognized. Please correct the part number and try again or [click here to try to resolve the error](#)”.

The screenshot shows a similar web application interface. The 'Add Items To Order' button (1) and 'Review Order' button (2) are visible. The 'Purchase Order Number*' field is empty. Below it is a table with columns 'Quantity' and 'Part Number'. The first row shows a quantity of '1' and part number '123456' (highlighted in red). A yellow callout box points to the part number field with the text: "The part number cannot be recognized. Please correct the part number and try again or [click here to try to resolve the error](#)". The 'click here to try to resolve the error' text is circled in red. At the bottom, there are 'Clear Items' and 'Add To Order +' buttons.

- By clicking on the link in the error message, the Line Item Resolution screen will appear with a list of parts that fit the value entered in the Part Number field.

The screenshot shows a search interface for parts. At the top, there is a 'Part Number' input field containing the value '123', which is circled in red. To the right of the input field is a 'Starts with' dropdown menu and a 'Search' button. Further right is a 'Check All Pricing & Availability' button. Below the search bar is a table with the following columns: Part Number, Description, Weight, List Price, Net Price, and Total Stock. The table contains ten rows of results, each with a radio button, a part number, a description, weight, list price, net price, and a 'Check Pricing & Availability' link. At the bottom right, there are 'Cancel' and 'Select Part' buttons.

Part Number	Description	Weight	List Price	Net Price	Total Stock
<input type="radio"/> 123456BB	Ball Bearing	0.1 g	EUR 10,00		Check Pricing & Availability
<input type="radio"/> 123456TA	Tapered Assembly	0.1 g	EUR 4,00		Check Pricing & Availability
<input type="radio"/> 123456TB	Tapered Bearing	0.1 g	EUR 2,00		Check Pricing & Availability
<input type="radio"/> 123456TC	Tapered Cup	0.1 g	EUR 12,00		Check Pricing & Availability
<input type="radio"/> 123456TO	Tapred Cone5	0.1 g	EUR 14,00		Check Pricing & Availability
<input type="radio"/> 123457BB	Ball Bearing	0.1 g	EUR 10,00		Check Pricing & Availability
<input type="radio"/> 123457TA	Tapered Assembly	0.1 g	EUR 4,00		Check Pricing & Availability
<input type="radio"/> 123457TB	Tapered Bearing	0.1 g	EUR 2,00		Check Pricing & Availability
<input type="radio"/> 123457TC	Tapered Cup	0.1 g	EUR 12,00		Check Pricing & Availability
<input type="radio"/> 123457TO	Tapred Cone	0.1 g	EUR 14,00		Check Pricing & Availability

- The results can be changed by changing the search criteria (similar to the part search located on the store front page). Pricing and availability can be run on each of the parts that appear on the screen.

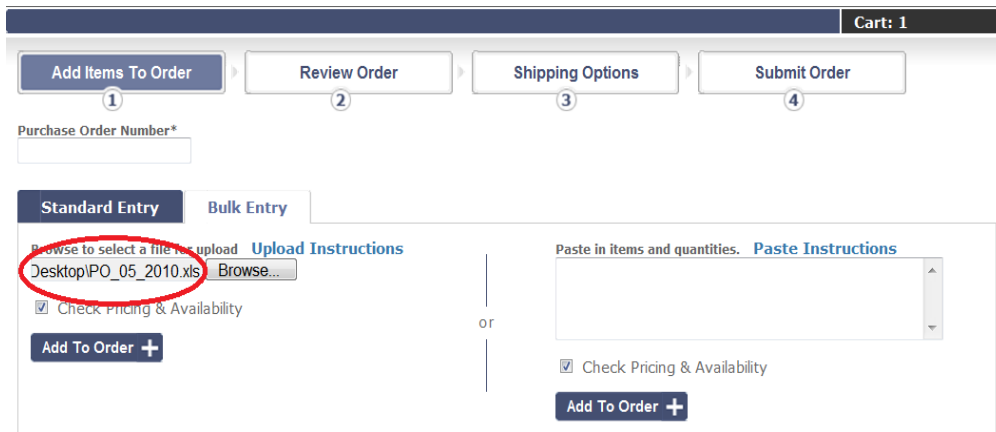

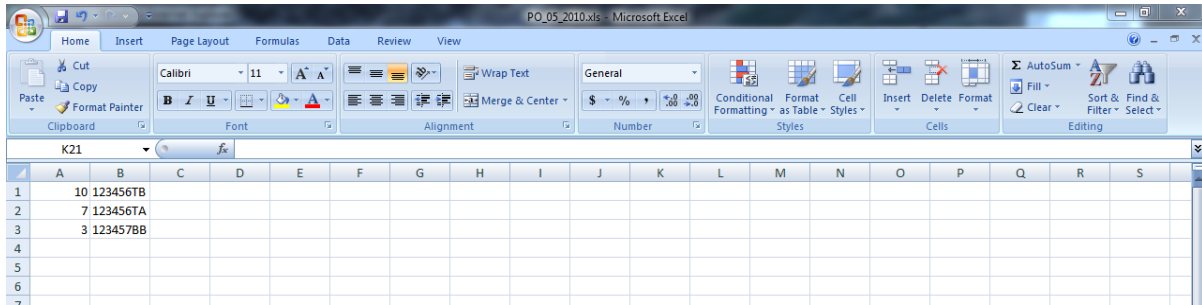

The screenshot shows the same search interface as the previous one, but with the 'Part Number' input field containing the value '123457', which is circled in red. The 'Search' button is highlighted, indicating it has been clicked. The table below now displays only five results, corresponding to the parts whose part numbers start with '123457'. The 'Check All Pricing & Availability' button is still present. At the bottom right, there are 'Cancel' and 'Select Part' buttons.

Part Number	Description	Weight	List Price	Net Price	Total Stock
<input type="radio"/> 123457BB	Ball Bearing	0.1 g	EUR 10,00		Check Pricing & Availability
<input type="radio"/> 123457TA	Tapered Assembly	0.1 g	EUR 4,00		Check Pricing & Availability
<input type="radio"/> 123457TB	Tapered Bearing	0.1 g	EUR 2,00		Check Pricing & Availability
<input type="radio"/> 123457TC	Tapered Cup	0.1 g	EUR 12,00		Check Pricing & Availability
<input type="radio"/> 123457TO	Tapred Cone	0.1 g	EUR 14,00		Check Pricing & Availability

Bulk Entry Upload

Upload the PO as Excel or CSV file

You can still upload your PO using an Excel spreadsheet or CSV file. Simply click the "Browse" button to locate your file then click the "Add to Order" button.

[Top Menu](#)

Copy and Paste the PO

In addition, you can paste in the part number, quantity and (if applicable) the requested ship date. There should be one part per line and the values should be separated by a tab or comma.

Order Entry/P&A Auto Complete

Entering part numbers in Order entry and Price and availability has been made faster. A new blank entry line will automatically appear to enter additional quantity and part after tabbing or clicking on the last part entry field.

The screenshot shows the 'Add Items To Order' step (1) of a four-step process. Below the navigation bar is a 'Purchase Order Number*' field. The main area has two tabs: 'Standard Entry' (selected) and 'Bulk Entry'. A table with two columns, 'Quantity' and 'Part Number', contains one row with '1' and '123456BB'. A second empty row is visible below. At the bottom are 'Clear Items' and 'Add To Order +' buttons.

Quantity	Part Number
1	123456BB

This screenshot is identical to the one above, but the second row in the table now has '1' in the 'Quantity' column and a red circle highlights the empty 'Part Number' field, indicating that a new blank entry line has been automatically generated.

Quantity	Part Number
1	123456BB

Enter a Zip Code for a new Ship To Address

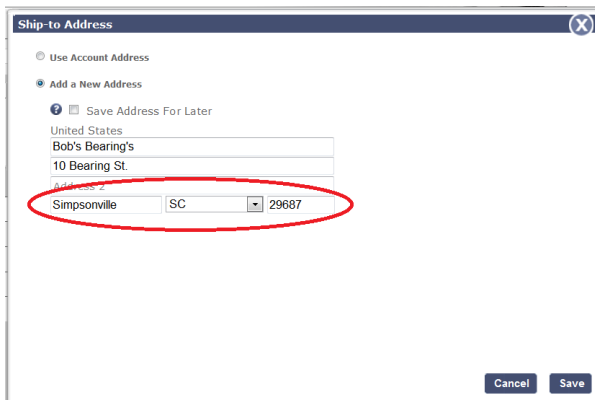

When adding a new Ship To Address, simply enter a zip code and the respective city and state will populate automatically. The city and state can be changed by clicking on the down arrow and selecting "Other". A new city and state can then be entered and will be saved accordingly.

The screenshot shows the 'Ship-to Address' dialog box. The 'Add a New Address' section is active. The 'Address 2' field contains the zip code '29687'. A red circle highlights the '29687' text. The state dropdown menu is currently set to 'Taylors, SC'. The 'Save' button is visible at the bottom right.

The screenshot shows the 'Ship-to Address' dialog box. The 'City *' dropdown menu is open, showing 'Select One' and the zip code '29687'. A red circle highlights the dropdown menu. The state dropdown menu is currently set to 'Taylors, SC'. The 'Save' button is visible at the bottom right.

The screenshot shows the 'Ship-to Address' dialog box. The 'City *' dropdown menu is now populated with 'Simpsonville' and the state dropdown menu is populated with 'SC'. A red circle highlights both dropdown menus. The zip code '29687' remains in the 'Address 2' field. The 'Save' button is visible at the bottom right.
